#### What to Expect at this month's program

- Find out about other programs and games that are available to stimulate your brain and support recovery and maintenance.
- Spotlight a few great resources for better health and health care
- An opportunity for you to share some of the great resources you have found
- Certified Stroke Center in San Joaquin? What's New.

Medtronic is changing the face of chronic disease. By working closely with physicians around the world, they are creating therapies to help patients do things they never thought possible.

ITB Therapy<sup>SM</sup> (Intrathecal Baclofen Therapy), or the Medtronic baclofen pump, is a treatment that may relieve some of the symptoms of severe spasticity.

Find out more about this therapy at this month's CV-RAPS
